

# 7th Annual Wisconsin Center for Nursing Conference

## Transforming Health Care: Opportunities for the Wisconsin Healthcare Workforce

**Monday, June 5, 2017**

**Richard T. Anderson Education Center, Waukesha County Technical College  
800 Main Street, Pewaukee, WI**

WCN invites all nurses and healthcare leaders to our 2017 Conference to explore how emerging trends are reshaping the healthcare market place. Our keynote speaker will address how medical science and clinical practice are shifting their orientation from acute care to preventive management of chronic conditions, accelerating the shift from inpatient to outpatient care. We will then rotate in groups through 3 breakout sessions featuring content experts in the areas of population health, workforce predictions, and the characteristics for successful team based practices which include new models of care. The afternoon will culminate in a panel discussion and group sharing of ideas on these significant trends.
