The Wisconsin Nurses Political Action Committee (**WINPAC**) was formed in 1980 with the primary purpose to ensure a strong and effective voice for nursing through political activity. WINPAC work includes the following:

- Educate nurses and health care consumers about the political process as it relates to nursing and health issues,
- Encourage nurses and health care consumers to organize and get involved politically,
- Raise funds for the purposes of supporting candidates financially,
- Endorse and make contributions to state legislative candidates who are “friends of nursing.”

WINPAC is directed by a Board of Trustees, is non-partisan, and is a non-dues organization. It is not required that you be a member of WNA to be a member of **WINPAC**. The **WINPAC** Board of Trustees is responsible for candidate endorsement. **WINPAC** is not allowed to accept money from its “parent” organization, namely WNA, or corporations for political action activities. Consequently, **WINPAC** must earn, through fundraising and individual contribution, all monies needed for endorsement of state legislative candidates and other political action.

WINPAC is interested in your opinion on the legislative priorities for this next biennium. Which of the priorities do you think WINPAC should focus on as part of the endorsement process? You may select as many items on the list below that you believe will make a difference for professional nursing in Wisconsin.

- Addressing workplace violence impacting nurses
- Title protection for Advanced Practice Nurses that include nurse practitioners, clinical nurse specialist and certified registered nurse anesthetists
- Increase loan forgiveness for RNs pursuing a Master’s, Doctorate in Nursing Practice or Doctorate in Nursing for the purposes of working as a nurse educator
- Remove the physician collaboration agreement requirement as a condition of prescriptive authority for advanced practice nurse prescribers
- Increase state funding that assures an adequate supply of RNs to provide quality care for Wisconsin’s vulnerable populations
